Art Unit: 2154

1. Claims 1-187 are presented for examination.

Election/Restrictions

2. Restriction to one of the following inventions under 35 U.S.C. 121:

- I. Claims 1-66 and 103-187, drawn to a peer computing system utilizing pipe network transport protocol, classified in class 709, subclass 227.
- II. Claims 67-80, drawn to messaging protocol among peer nodes identifying a pipe, classified in class 709, subclass 220.
- III. Claims 81-102, drawn to creation of pipes within a peer computing system, classified in class 709, subclass 228.

3. The inventions are distinct, each from the other because of the following reasons: Inventions I, II and III are related as subcombinations disclosed as usable together in a combination of inventions I and II and inventions I and III. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as in a system-lacking the implementation of messaging protocol among peer nodes identifying a pipe and the creation of those pipes within a peer computing system. Invention II has separate utility such as in a system-lacking the implementation of the creation of pipes within a peer computing system, See MPEP § 806.05(d). Also the restriction requirement is based on the interpretation that every dependent claim is dependent on the preceding independent claim (note Applicant's claim numbering).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group I, Group II or Group III, is not required for the remaining Group, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

7. A shortened statutory period for reply to this Office action is set to expire in ONE MONTH from the mailing date of this action.
